

IIT GOOGLE DESKTOP™ DEVELOPER CHALLENGE II – SPECIFICATION

ABOUT

“IIT Google Desktop™ Developer Challenge II” is a software competition based on Google Desktop™ Gadget platform; organized for students at Informatics Institute of Technology (IIT), Sri Lanka.

Any student enrolling courses at IIT are eligible to take part in this competition.

Competitors are encouraged to develop and submit new Google Desktop™ Gadgets using [Google Desktop™](#) SDK provided by Google™.

All submissions will then be evaluated by a team of judges and the winners will be selected.

THE PROCESS

All participants must submit their proposals.

All proposals should no more than one side of a A4 paper containing a detailed introduction of your submission.

The proposals will be screened by a team of professionals and will guide competitors throughout the competition.

We – the organizers of this competition – are guaranteed about the privacy of your proposals until the competition ends.

After the proposal submission phase all competitors can continue their developments with the guidance and help of the provided resources.

We will track your development process and will help and guide you if needed.

Please check the **competition time-line** for more details of the schedule.

SUBMISSIONS

All submissions must be valid Google Desktop™ Gadgets developed using [Google Desktop™ SDK](#).

More details about the submission process will be informed as we move forward with the competition.

AWARDS

Most 6 compromising entries will get cool Google™ gift packs which include nice Google Desktop™ T-Shirts, Google™ Mugs and Google™ Stress Balls. :)

In addition to gift packs, 1st, 2nd and 3rd entries will get gift certificates of \$80, \$60 and \$40 respectively.

Not only that, we have some more Google swags, so there is a good chance for every participant who takes part in the competition.
